

MycorrPlus™ O

A Natural Soil Amendment

Guaranteed Analysis:

0 – 0 – 0.7

Soluble Potash (K ₂ O)	0.7%
Magnesium (Mg)	1.9%
Chloride (Cl-)	5.8%
Sodium (Na)	0.6%

Derived From: Potassium Sulfate, Potassium Chloride, Magnesium Chloride and Sodium Chloride.

DIRECTIONS: Broadcast in a 20 to 40+ gal./acre tank mix.

If applied before a rain or watered in, or if worked in or applied in-the-row, on-the-seed, you may use a 10 GPA or less tank mix.

Please loosen lid while product is in storage to allow venting.

Apply 32 to 64 oz. of MycorrPlus-O per acre. It needs to be watered in, unless it is applied in the row, on the seed, or tilled into the soil 1" to 2". Needs 1.1" of soil moisture to activate. May be applied through the sprinkler, with flood irrigation, tape, or drip line. To treat lagoon water, apply at the rate of 5 gallons for every 250,000 gallons. To compost manure, use 12 oz. for every cubic yard.

If there is any Fungus growing on top of MycorrPlus, screen off before applying.

If MycorrPlus-O is applied with fish or kelp, add MycorrPlus-O to the tank first, add water, then add the other item. Not compatible with most other items.

Always jar test before applying another product with MycorrPlus-O. Best applied with non-chlorinated water. Five-year shelf life if stored above 0° F., below 100° F, and out of direct sunlight.

Heavier content can settle, so shake or turn over a couple of times before using.

AG-USA™ makes no warranties of any kind, express or implied, with respect to MycorrPlus-O.
